

**Amendments to the Claims:**

Please cancel claims 1-19 and 21-25, and add new claim 26. New claim 26 is original claim 19 rewritten in independent form.

The following Listing of Claims will replace all prior versions, and listings, of claims in the application:

**Claims 1-19 (Cancelled)**

20. **(Original)** A microstructured composite sheeting, comprising:  
a three dimensional array of cured microstructure elements formed from a polymeric material, wherein any seam present in the array has a width of about 0.0025 mm to about 0.2 mm on the patterned side.

**Claims 21-25 (Cancelled)**

26. **(New)** An article comprising at least one patterned surface produced by a mold produced by a tooling made by a method comprising:  
providing a substantially planar tooling having a first end and a second end opposing one another, a patterned side, and a back side opposite the patterned side;  
placing the opposing ends together to form a substantially cylindrical shape forming a lumen therein, wherein the back side faces the lumen; and  
welding the ends together from the lumen such that at least the opposing ends of the back side are joined;  
wherein the mold comprises a joining line having a width of about 0.0025 mm to about 0.2 mm on the patterned side, and further wherein the at least one patterned surface of the article has a seam of substantially the same width as the joining line of the mold.
